The entire property is stone walled and the upper part of the land is kept untouched but well maintained. There is plenty of space to build a swimming pool either at the back or front of the property.

The boiler room is housed at the back of the house and there is also a garden shed for extra storage.

**THE AREA**

Tavronitis is also a year-round village and has a nice pebbly beach which is actually a small part of the vast beach which stretches from Kolimbari in the west to Chania in the east. There are a couple of tavernas in front of the beach which are open during the summer season.
